Make-Up Game Sunday October 21st, 2018

As stated in previous issues of The Bearcat Prowl; both Rookie and Senior Tackle were going to make-up their rain out game from September 22nd. Also stated, that game would take place on a Sunday and on Wednesday October 17th we were officially informed that this game will take place this Sunday October 21st. On behalf of the Capital City Bearcats' organization we do apologize for the late notice. Please understand that there are only a few weeks we can play all scheduled games and with mother nature this year it has been difficult to find weekends to play. There are two main reasons why a Sunday was chosen:

1. League referees have games Monday-Friday.
2. The league sides on player safety with having any athlete play two tackle games in one day.

If you have any questions about Rookie Tackle playing (Sunday October 21st @ 11AM) or Senior Tackle playing (Saturday October 20th @ 1PM and Sunday October 21st @ 2PM) please **SEE PAGE 2**. If you have any questions, please call our President Coach Nate at (512) 289-5189. *****Location will either be McCallum or Bailey Middle School (South Austin area). Depends on field conditions.*****

Cheer Gameday

1. All Cheerleaders will be in full uniform this Saturday.
2. Coach Camille and Ms. LaTwayna will communicate via text and GroupMe about this Saturday and this Sunday. If you have any questions, feel free to contact your athlete's coach or ask through GroupMe.

Think Before You Pink!

Why Pink?

You may have heard about special events, like walks or races, to raise money for breast cancer research. Or maybe you've seen people wear those little pink ribbons on their clothes. Now you want to wear pink for October. Do you know why? Make sure you and your family know why and "think before you pink".

What is Breast Cancer?

The human body is made of tiny building blocks called cells. Your body creates them, replacing those that die with new ones. Usually, the body creates healthy, normal cells that do just what they're supposed to do. This includes cells in the breasts, the two rounded areas on the front of the chest.

But if a cell changes into an abnormal, sometimes harmful form, it can divide quickly over and over again without dying, making many, many copies of itself. When this happens, a tumor, abnormal body cells grouped together in the form of a mass or lump, can start to form and grow.

Breast cancer is a kind of tumor that develops in the cells of a person's breast. You may think that only women can get breast cancer, but because all people have breast tissue, men can get breast cancer as well — though this is very rare.

A tumor can form anywhere in the body. Someone has cancer when those abnormal cells will not stop growing, and then cause sickness in a person's body.

Capital City Bearcat's "Pinktober"

So why pink? We wear pink to create awareness and support the many people that are fighting to beat breast cancer. We wear pink to support the need for more research so lives can be saved. We wear pink to remember those that have lost their battle against breast cancer. We wear pink because we care! It's not about the livest gear or the tightest socks! It's about making a difference and creating awareness while playing football or cheering on the sidelines.

So, make sure you think before you pink! While you may wear it, remember it's not about you.

Happy "Pinktober"!

Best,

Capital City Bearcats Board
