## **Old Business**

### **New Business**

Baseball's request to share the Fairview concession stand?

There will be games on A & B – so it will be busier now. They would like to use the concession stand (or our hot dog roller, refrigerator, microwave, etc.) since the building is not ours. Everything new going forward would be split but what happens if something goes wrong? Work this out...

Would the seasons ever cross? No, probably wouldn't open it during fall ball.

Would an adult be there? Yes, they would have to for Fairview

Need to do something about the lock on the front of the concession stand? Replace it with something like the garage door on the other side? Dan will talk to the township.

New league: need to vote on possible weight limit for defensive skill players (lbs and dbs) for new league. **Vote No.**

Finished up varsity rules, not a lot of new stuff

Ball carrying weight is 115 lbs but under review. Might get increased

Anyone twice the ball carrying weight will be reviewed by the league board

Kids playing up or down – the board would have to approve but will lean towards not playing down

Mike will draft an email to send to our parents, and we may follow it up with a parent meeting

## **Meeting adjourned**
