Lake Mary Little League

Spring 2025 Local Rules

If a vacancy occurs in the Minor “AAA” division on a team that a player was pulled up to the Major Division from, that team can pull up an 8 year old from the Coach/Player Pitch “AA” division provided there are no League Age 9 or 10 players on the waiting list. This may be done only through the Player Agent.

A League Age 6 year old player may apply for a Coach Pitch “A” division team provided they must have played at least one season in the T-Ball Division with Lake Mary Little League

A League Age 5 year old player who will turn league age 6 in the next year may apply for a Coach Pitch “A” division team provided they must have played at least two seasons in the T-Ball Divisions with Lake Mary Little League pending board approval.

At all divisions, the player pools will be based on completed registrations in the system. In the event that a division reaches a wait list status, all wait list registrations will be added to the pool if an opening occurs or additional teams can be added on a “first come, first served” basis, based on the date and timestamp that they completed the registration for the wait list within the registration site.

II. Draft Method/Team Assignments

The Player Agent will conduct meetings with the managers of the baseball Coach Pitch “A”, baseball T-Ball and softball Rookies teams to place players to teams.

The Draft Method for all baseball divisions Double A and above will follow “Plan B Method” with the draft policy local rules created to be the same format from majors down to AA. All players that are eligible for the Division will be available to be drafted with the managers drawing numbers to determine the sequence of selecting the players. The order of selection will reverse each round. If, for some reason, this method cannot be used, the Player Agent will assign eligible players within the Division to teams.

Softball Rules

The Draft Method for all softball divisions Minorss and above will follow "Plan A – Method for Existing Leagues" with no local rule changes. If, for some reason, this method cannot be used, the League will follow a modified local draft policy that allows for a fair distribution of players based on abilities determined through the assessment process. LMLL Major and Minor League Softball will use the following method for Team Assignments:

- Each Team Manager ("manager") will be allowed up to (2) Assistant Coaches for the purposes of Team Formation. Assistant Coaches must be registered in the system and complete required background check
- A Manager may "lock" up to 3 players prior to the day of assessments. The Manager must identify their 2 Assistant Coaches prior to the assessments; however, this is only a requirement to be able to formally lock those kids. Manager and Assistant Coaches' kids who are playing in the Majors Division must be counted towards the locked players (i.e., 3 coaches w/ 3 kids will use their 3 locks automatically).
- A Manager will be able to lock up to 2 additional players, if and only if, the Manager has coached the player within 2 previous seasons. This will also apply to players coming up from the Minor or Rookie division. If a Manager chooses to forgo or does not have the ability to lock a past player, the Manager will be given draft priority until their respective roster reaches the same amount of players as the team with highest number.
 - Ex. In a division with 2 teams, a team with 2 locked players will be awarded the 1st pick of the draft to reach 3 players (assuming the other team has 3 locked players). If there are 3 or more teams, a draft order⁽¹⁾ will be created until all teams get to 3. From there a new draft order will be determined.
- All players must attend assessments
- Players that are not locked will be part of a general draft pool
- A draft order⁽¹⁾ will be determined, and each Manager will choose from the available draft pool
- A parent may request in writing that their player not be locked for an upcoming season. That player will be placed in the general draft pool.
- In the event of any conflict, the LMLL Board will communicate with players' parents to determine which team will take the locked player.

⁽¹⁾All draft orders will follow a serpentine format in the event there are 3 or more teams. Determining order: 2 teams – coin flip; 3 or more teams – numbers drawn out of a hat. If 2 or more teams have a lower number of locked players vs. a team with more, those teams will have a draft order determined until they reach the same level of players as the other team(s). A new draft order will then be determined with all teams pulling a number out of a hat.

To be eligible for the Softball Minors and above drafts, the player must have attended scheduled skills assessments or contact the player agent for the division in writing prior to their scheduled times as to the circumstances that prevents attendance and could make the player eligible for the draft based on the player

agents decision. A member of the board of directors will keep an assessment for each player that is shared across all managers prior to the draft and the managers or their designated representative should attend and score their own assessment. The managers can share assessments amongst themselves of any player, if desired, prior to the draft.

Draft Rules for Baseball and Softball

Each draft will start promptly at the scheduled time and will begin with the player agent covering the draft process, answering general questions about the process, and the selection of the numbers for the sequence of the draft. The selection of players will begin immediately after the sequence of the draft has been defined.

Coaches cannot be appointed until after the team drafts for the division are completed and are dependent on the approval of the board of directors. The exception is if a “coach option” is properly exercised and approved by the player agent and board prior to the draft.

A registered player who did not attend a skills assessment and was not previously approved by the player agent to not attend, will not be eligible for league play. If approved, they will be randomly assigned to a team and cannot be drafted.

Each team may have only 1 representative attend/participate in the draft which will be conducted by 2 board members not involved within the division being drafted, typically with one being the player agent of that division or a designated representative.

Any trades of drafted players must be completed by midnight after the conclusion of the draft.

Any player who registers after the draft and there are two or more teams who do not have a complete roster, the player will be placed on the teams by doing a ‘hat pick’. This will be conducted by the player agent with the affected team managers or another individual the team manager may designate. The teams without a complete roster will have a single ballot placed with the team name in a non-transparent container and the player being drafted will be declared by the player agent. The managers or their designated representative will then draw a team name and the player declared will be placed on the team drawn. The order that the teams will select will be a continuation of the completion of the draft.

Options for Sons, Daughters, and Siblings

If a manager has sons and/or daughters eligible under Regulation II for the draft, and wishes to draft them, the manager is required to do so at or before the close of the specific draft round, depending on the League Age of sons and/or daughters. The parent/manager option takes priority over any other option. When there are two or more siblings in the draft and the first sibling is drafted by a manager, that manager automatically has an option to draft the other sibling in the next turn. If the manager does not exercise the option on his own child(ren), the second sibling and all other options are then available to be drafted by any team.

III. Local Tournament/District Top Team

Local Playoff Format

There is no planned playoffs in the T-Ball or “A” baseball divisions or Rookies softball division. All other divisions will schedule a playoff as follows:

- If there is one team in a division, that team will be the Tournament team if there are enough eligible players to participate and will not have a playoff.
- If there are two teams in a division, the Board of Directors will schedule a double elimination tournament for teams participating in the division during the regular season.
- If there are three or more teams in a division, the Board of Directors will schedule a single or double elimination tournament for teams participating in this division during the regular season.

All playoffs are tentatively scheduled for the week of May 10th dependent on District level tournaments to make consideration for rest for pitch counts. In the event that District 19 holds a Top Team tournament for a division, the winner of the Lake Mary Little League tournament for that division will advance to play at the district level.

Lake Mary Little League

Spring 2025 Local Rules

Seeding

Seeding for the playoff will be first determined by best winning percentage by assigning points to a game as follows: 1 point for a win, ½ point for a tie, 0 points for a loss and dividing the sum of the points by the total number of games played. In the event of a tie, head to head record between the tied teams, and then runs against divided by innings played will be the deciding factors for the seeding. If still tied at this point, the seeding will be determined by a coin flip. In the event that a team has not played an equal games against interleague opponents, only games played by the teams with common opponents will be considered.

IV. All Star Team

In late April to early May a general survey will be sent to all eligible managers/coaches and players to confirm if they would be available to participate in the All Star games if they were to be selected to allow for individuals to opt out if they are not interested/available for play. This is only to confirm availability to help build the potential candidates that will be the one voted on from ballots.

Managers & Coaches

The President of Lake Mary Little League will nominate and the Board of Directors will vote on the All-Star managers and coaches, based on, but not limited to the following criteria: ❖ Have responded to the survey they would be interested to be considered ❖ Knowledge of the game of baseball/softball.

- ❖ Knowledge of Little League Baseball/Softball playing rules.
- ❖ Favorable interaction during regular season with other managers, umpires, players and parents.
- ❖ Any disciplinary actions taken against a prospective manager or coach will be considered. ❖ Time and availability for practices and games.

A manager and/or coach must be an active member of a team for at least half of the league's regular season schedule in order to be eligible for a tournament team. Player's eligibility will follow all criteria that Little League International establishes for the tournament.

Players

A player's eligibility will follow all criteria that Little League International establishes for the tournament. The Player Agent will review the eligibility criteria and will prepare ballots to include all players who have participated with Lake Mary Little League and that have met the established criteria. As currently stipulated by Little League International, a player is eligible to be on multiple ballots that they would be eligible for based on League Age, however, the player will only be allowed to participate with a single team for the Tournament. Assuming there is sufficient number of eligible players in each age group and there are corresponding league age aligned tournament teams that the players can advance to, the ballots will be based on the League Age.

The managers and coaches of each All-Star division, along with umpires and the Board of Directors, will select the first nine (9) players by ballot vote of up to 12 players with the top 9 vote recipients being elected. These votes will be collected and tallied by the Player Agent. The manager of the All Star team will choose the remaining players who must be approved by the Board of Directors. If based on the ballot method outlined above is based on League Age, the manager of the All Star team can select the additional players from a lower league age ballot if that player is eligible for the tournament team based on league age with the higher level of play having a priority if the player decides to participate with that team, but would forgo the lower level team eligibility to maintain they are only able to participate with a single team for the Tournament.

The 9/10, 10/11, 11/12 and 11/12/13 year old All Star teams may carry up to a total of 14 players at the manager's discretion. The Intermediate and Junior managers may carry up to 14 players on their roster.

Any player suspended for the remainder of the season will not be eligible for tournament play.

A committee appointed by the President will count ballots. The roster of the All Star teams will not be released until the parents have confirmed the availability of all players and not until date established by Little League Baseball.

Under these circumstances, a player may be called up to replace the injured player only after the injured player has been properly released in accordance with the Little League Baseball Operating Manual. All actions regarding release and subsequent replacement of injured players require board approval.
- If a current player is chosen by the Player Agent to advance to the next division, 24 hour notice must be given so that the necessary arrangements can be made for uniform fitting and a replacement player can be chosen for the player's current team. At no time can a manager call up a player on the day the player is scheduled to play in his/her division. At spring registration, if parents state that their child is eligible for a particular Division and the player is drafted and refuses to play at that level, the player will not be eligible to participate for the entire spring season. A Minor "AAA" Division player that is chosen by a Major Division manager and refuses to go up will not be eligible to be placed on a Major Division team for the duration of the season. A Major Division player that is chosen by an Intermediate Division manager and refuses to go up will not be eligible to be placed on an Intermediate Division team for the duration of the season.

While it is not expected, in the event of a problem providing an umpire, managers and coaches may be required to umpire games at the discretion of the Board of Directors or to provide qualified volunteers to umpire games on their behalf. Such qualified volunteers must have a completed Volunteer Form on file with the league.

23. All games must complete at their scheduled time to allow the 15 minute time break between games to prep the fields, warm ups, and to allow the subsequent game to start on time. This is critical on week nights when there is a game scheduled at 7:00 or later as those games will have a hard stop due to the light curfew at the fields.
24. A plate meeting must be held at the start of every game to ensure both teams and any officials agree on the rules for the game to be played. This covers specific items to the division rules as listed in the following sections.

1. All games will have a maximum time limit of 1 hour and 45 minutes. No new inning may be started after 1 hour and 30 minutes. The next inning begins immediately after the third out of the bottom half of the previous inning. The official time of any game will **always** be the scheduled time. The umpire is the official timekeeper. **All games shall end at the designated time regardless of the time the game started unless there is no game following the game being played in which case the no new inning rule will still apply however the maximum time limit will be waived so as to finish the current inning prior to ending the game.**
2. Every player on a team roster will participate in each game for a minimum of six (6) defensive outs and bat at least one (1) time. Any player who does not play mandatory number of outs and at bats will be required to start the next scheduled game and the manager will be subject to disciplinary action as outlined in Little League Regulations.
3. If agreeable to both teams at the start of the game, there can be 4 outfielders when a team has more than 9 players.
4. Each team shall bat **ALL** players on offense. The league will use continuous batting order of all players present at the game.
5. The first two (2) innings will be player pitch. The remaining innings will use the pitching machine (Blue Flame)
6. The Pitching Machine (Blue Flame) will be set at Speed 7 and located at the center (pitchers rubber) of the pitching mound.
7. Regulation balls and strikes will be called and walks allowed during player pitch. During machine pitch, batters are allowed three (3) strikes (swinging or called), but no walks or intentional walks allowed. If the batter does not make contact with the 3rd strike, then the player will be called out on strikes. Foul balls on the 3rd strike will allow the batter to continue to hit until the ball is hit into fair play or the batter fails to hit the next potential strike.
8. If a hit ball comes in contact with the pitching machine, the ball is dead and the player is awarded 1st base. If any runners are on base, they cannot advance except as forced.
9. Stealing of bases is not allowed.
10. There is no 10' circle that a ball needs to advance beyond to be considered a fair ball, however, bunting is not allowed.
11. A 5-Run Rule will be in effect for the machine pitch innings, and a 3-Run Rule will be in effect for player pitch innings. Sides change when either the maximum number of runs have scored or the defense has gotten 3 outs.
12. Containment on the lead runner will stop play. When the lead runner stops and gives up effort to advance, the play is completed and stopped. This will be determined by the umpires. Other runners who are not beyond halfway to the base which they are advancing to, when T/O is call, will be sent back to previous base. Umpire shall call "Time" after every play and declare the ball dead. "Time" shall be called as soon as the lead runner is not attempting to advance. "Time" does not have to be called by the defense for purpose of this rule. Returning the ball to the pitcher (player) does not automatically consider play dead. When a runner stands off a base and "jukes" or "feints" back and forth, this is to be interpreted as "not attempting to advance" and "Time" shall be called by the umpire. Runners may advance at their peril only one base per **each** overthrow.
13. A player hit by a pitch when an opposing player is pitching must advance to 1st base. If hit by a pitch off the machine the at bat continues.
14. Each team is to provide two (2) brand new league approved game balls at the start of every game. No other balls are permitted to be used.
15. It is Lake Mary Little League policy that if a Coach/Player Pitch "AA" Division player declines to move up to a Minor "AAA" Division team when selected to fill a vacancy in the Minor "AAA" Division, that player will remain in the Coach/Player Pitch "AA" Division for the duration of the current season.
16. Two (2) adult base coaches are allowed provided another coach or parent volunteer is in the dugout with the players.
17. The home team is responsible for providing the official scorekeeper for the game. The home team will also be the official for all records including pitch count.
